

TILT BUCKETS

TILT BUCKETS

For cleaning up, finishing and smoothing

ShawX Tilt Buckets are ideal for dams, drains, contours and batters. The unique design of a long floor, continuous radius skin, low headplate and centre pivot make for an easy to use, smooth operation. The open back design helps prevent wear and damage. We make all the parts, including rams, in-house and carry a full range of parts.

ShawX Tilt Buckets are:

- ✓ 100% Australian made.
- ✓ Strong and durable.
- ✓ Low maintenance.
- ✓ Quality designed and tested.
